POST OFFICE, Columbus M ss. June 11, 1838. It is probably not known to the public, that at the end of each quarter, the amount due for postage is as great as the whole amount of ms, and of course the money on hand is barely sufficient to pay the Drafts of the Post Office Department. This state of things cannot longer be endured. The labours of the office are severe, and at best very madequately compensated. I must, hereafter, insist on a strict enforcement of the rule by which I am imperatively bound. My friends will please not ask of me credit for postage, least of all ask it of my assistants who cannot grant it without disobedience of orders and violation of official regulations. All persons in debt for postage of letters papers and pamphlets, will please pay immediately. This way of handing in the change to-morrow or next day, will not answer. Now do not get offended if you are refused, when you wish to get credit in the Post Office ;-the money must be paid on delivery of letters, and newspaper postage must be paid in advance at the beginning of
